Petition to Support Massachusetts Dairy Farmers

Dairy farmers in Massachusetts suffer from low farm milk prices and high feed and fuel costs. Many may be driven out of business this year. We, the undersigned, ask Governor Patrick and the Legislature to provide substantial short term relief for our dairy farmers. We also would be willing to pay several cents more per gallon of milk if the funds supported farmers. Return to: Massachusetts Association of Dairy Farmer, 160 North County Rd., Leyden, MA 01337.
